

The COPE project is focused on developing forward-looking learning centres and supporting local learning environments and social inclusion by encouraging learning centres to work together in order to motivate and enable adults of all ages to learn the necessary key competences to be resilient and adaptable in the face of change and uncertainty.

WHAT IS RESILIENCE?

"Resilience is that ineffable quality that allows some people to be knocked down by life and come back stronger than ever. Rather than letting failure overcome them and drain their resolve, they find a way to rise from the ashes."
